Classroom Chemistry

You don't need to be a mad scientist to get kids excited about chemistry! Join Dr. Peter Wright and Jess Lastwika, our amazing scientist and educator team, for tips and tricks on wow-ing students with simple, hands-on experiments. Leave with ideas and resources that will captivate your class and build your chemistry confidence.

Electricity & Magnetism

Are you ready to shock your students with your knowledge of electricity and magnetism? Join Heather Lai, an exceptional educator and Ed Kusmirski, a passionate engineer who captivate audiences with hands-on gadgets and simple explanations of tricky concepts. Expand your teaching toolbox through demonstrations and activities that make connections to real-world science.
