

## Science Professional Development for Gr. 3 Teachers

*Bring the excitement of hands-on science to your classroom!  
Handouts and resources included with every workshop.*

- Scientists & Engineers  
-in-the-Classroom
- Science Workshops for Teachers
- Hands-on, Minds-on Activities

## Animal Life Cycles Teacher Workshop!

**For:** Grade 3 Science Teachers

**Date:** Wednesday, April 26th

**Time:** 6:30 – 8:00 pm (registration at 6:15 pm)

**Location:** MacEwan University, Downtown Campus  
10700 104 Ave, NW, Edmonton

**Cost:** \$35 Includes hands-on activities, resources  
& refreshments.

*Workshop fees are subsidized thanks to our generous donors.*

**Register Online!**

[www.albertasciencenetwork.ca/programs\\_workshops.html](http://www.albertasciencenetwork.ca/programs_workshops.html)

**Presenters:** Workshops are presented by practicing  
scientists/engineers and experienced educators.

### Animal Life Cycles

Just in time for spring! Join Jeffrey Newton, biologist and science outreach specialist, to explore the remarkable life cycles of not-so-average animals. There's more than frogs and chicks to the Animal Life Cycles unit. Did you know centipedes lovingly embrace their young, and beetles metamorphose just like butterflies? Learn about these fascinating creatures and many more.

Included in the workshop will be information on how to obtain materials (incl. live ones) and ideas for interactive activities to engage your students.
